

Our History

PAINT | CABINETS | LUMBER | FENCING | TOOLS | WINDOWS, DOORS & SHADES | PLUMBING | ELECTRICAL

1989

MWP Supply, Inc. opened on April 15, 1989, just down the road from its current location as a spin-off from Madison Wood Preservers. The small 3,000-square-foot store offered a variety of hardware, electrical, fencing, lumber, paint, plumbing, tools, and other building supplies. In September 2002, the store moved to the old Wrangler plant on the corner of Washington Street and Route 29. The newly renovated 35,000-square-foot building and 10 acres of property employing over 40 employees allowed the business to grow into more product categories, servicing farmers, homeowners, and contractors.

2019

Blue Ridge Builders Supply joined forces with MWP Supply to become MWP Blue Ridge Building Supply. This combination offered Central Virginia a broader, more accessible local source for the best quality products, great brands, and stellar customer service, offering convenient building supplies and hardware in Madison and Crozet and a paint and decorating store in Charlottesville.

2021

In January of 2021, we changed our name to Cardinal Home Center, a homage to our state and increasing service area. With over 35 years (and growing) of history in our community, we continue to be Central Virginia's ideal resource for building materials and lumber.

2023

Augusta Paint & Decorating joined the Cardinal Home Center Family adding locations in Staunton and Waynesboro while offering more services as a Benjamin Moore dealer.

2024

Cardinal Home Center expanded further into the Shenandoah Valley by welcoming the former Valley Building Supply in Staunton, Virginia. This growth helped create new relationships with customers within the region, allowing us to add additional services, showroom space, and new product offerings.

The Lake Anna Tractor & Hardware family joined our Cardinal team, furthering our footprint to Mineral, Virginia, and adding equipment such as tractors, mowers, and UTVs to our product offerings. We look forward to continuing its success with equipment while adding building materials, lumber, and more to support the community.
